30 November 1972

## MEMORANDUM FOR THE RECORD

SUBJECT: Comptroller's Meeting, 29 November 1972

1. Much of the time of the Comptroller's Meeting yesterday was taken		
up by discussions about how to absorb the pay increase if it becomes effective		
in January. Something more than \$2 million can be identified in personal services		
money across the Agency and about the same amount is expected to be realized		
through the remainder of the fiscal year, the total of which could account for		
about half of the cost to the Agency. In boking for sources elsewhere in the		
Support Directorate, Mr. Colby asked about the OC "contingency fund" which		
had been discussed last month and wondered why it did not show up as a devia-		
tion this month. says that Mr. Colby did not react favorably to		
having changed the obligation rate to "conceal" these funds. He instructed that		
these funds should not be reprogrammed without his approval.		
2. Mr. Colby asked whether any savings could be realized by reducing		
activities at the said that DDS is waiting for		
policy guidance about the projected level of PM activity before attempting to		
accomplish any reductions. Mr. Colby responded that we couldn't expect to		
get any more definitive guidance than is available, but he feels we should be		
looking for economies there. While acknowledging that we can't mothball or		
close down we should nevertheless be looking for ways to reduce		
staffing. suggests that we prepare a proposal for effecting		
economies		
3. Attention was also focused on the Headquartors Engineering account		

- 3. Attention was also focused on the Headquarters Engineering account and a question was raised about the possibility of deferring any equipment expenditures that might be included or related to that account. No action is required in connection with this one, but it will probably be examined again before we have finished with the identification of sources of funds to offset the pay raise.
- 4. Audio countermeasures equipment also invited attention, and Mr. Colby instructed that no additional funds be committed until we know where we stand on the pay act costs.

25X1

25X1	5. The costs for the Office of Communications has been added to the total amount to be absorbed by the Agency.
	6. It is expected that Mr. Colby will meet with the Deputies within the next few days to review the impact of absorbing pay act increases. He will also discuss the expected requirement that the Agency take a five to seven percent personnel reduction in fiscal year 1974.
25X1 25X1	7hoted that the DDI has listed the NIS program for elimination in FY 1974 if they are required to take the forecast reductionssuggests that we consider the impact of this proposal on the Printing Services Division.
	8. I have passed the information in this memorandum to the Office of Communications, Logistics and Security.
